	Grand Total	37	78	236	351

The Director (HR) was advised by the Board that it should be our endeavor to maintain a faculty student ratio of 1:20. However, since the University is offering sector specific courses, preference should be given to faculty with Industry experience and the shortfall should be compensated by inviting Industry experts to deliver expert lectures and full courses. The Board further advised that in such a case, even if required, the classes should be organized during weekends to cover the syllabus.
