ProwessIQ version 1.95 released

Addition of CMIE batches for Transfer Pricing

An upgraded executable of ProwessIQ is released today on 31 October 2019. The build date of this ProwessIQ executable is 23 October 2019.

The upgraded (.exe) of ProwessIQ is downloadable for free from <https://prowessiq.cmie.com>. It incorporates performance improvements and bug fixes.

This version incorporates batches made by CMIE specifically for transfer pricing studies. 11 ready to use batches for transfer pricing purposes have been added for each of the years 2016, 2017 & 2018. These batches will be updated every financial year. The query trigger 'Execute User Batches' has been renamed to 'Execute CMIE/User Batches' since it will now include batches made by CMIE for specific purposes. Earlier, this query trigger did not include any ready to use batches and all batches had to be manually made by the user.

The below screenshot shows the changes made to the query trigger 'Execute User Batches':

A Database of Business Entities
 Prowess is a database of the financials of Indian companies. Annual Reports of companies is the most important source of this database. For listed companies, the Prowess database contains additional data sourced from the stock exchanges. ProwessIQ provides time-series data beginning 1989-90. The database is updated on a continuous basis...

ProwessIQ User Interface
 ProwessIQ is accessed through a software installed on a local computer running Microsoft Windows OS. This is a windows executable developed by CMIE specially to access the Prowess database. The Prowess database...
