Program Evaluation By Student

Name of the Dept: *Electrical and Electronics*

Name of the Student: *Arjun Vishwakarma*

Name of the Program: *B-Tech - Electronics Engineering*

Batch: *2016 - 2020*

Sl.No	Description	1	2	3	4	5	If less than 3, kindly provide the suggestions for Improvement
1	There is adequate coverage of the courses pertinent to the program						
2	Courses in the program imbibe employability skills					✓	
3	Courses provide enough conceptual understanding of the areas concerned			✓			<i>Should include some industrial software skills, subject as program elective.</i>
4	Courses are designed to enhance analytical abilities)					✓	
5	Courses in the program provide for adequate participative learning / design content					✓	
6	Courses in the program provide relevant study material in terms of text and reference books				✓		<i>Standard, Reference books should be provided as course books.</i>
7	Overall Rating of the courses in the program					✓	

Suggestions for improvements:

In, the labs experiments should be performed with discrete components rather than kits, in order to increase understanding and hands-on experience

Program Evaluation By Student

Name of the Dept: Electrical & Electronics

Name of the Student: Shubham

Name of the Program: B-Tech Electronics

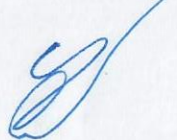

Batch: 2016 - 2020

Sl.No	Description	1	2	3	4	5	If less than 3, kindly provide the suggestions for Improvement
1	There is adequate coverage of the courses pertinent to the program					✓	
2	Courses in the program imbibe employability skills	✓					
3	Courses provide enough conceptual understanding of the areas concerned					✓	
4	Courses are designed to enhance analytical abilities)					✓	
5	Courses in the program provide for adequate participative learning / design content					✓	
6	Courses in the program provide relevant study material in terms of text and reference books					✓	
7	Overall Rating of the courses in the program					✓	

Suggestions for improvements:

The courses we study ~~are~~ are not same as what we are 'expected to study'. Aptitude, Technical and Coding courses all were designed to enhance the knowledge but not to enhance employability skills. Even after Bootcamp, the average employability ^{of} _{skills} class have not changed.

Program Evaluation By Student

Name of the Dept: Electronics Department

Name of the Student: Ajay Pratap Singh

Name of the Program: B.Tech Electronics

Batch: 2016 - 2020

Sl.No	Description	1	2	3	4	5	If less than 3, kindly provide the suggestions for Improvement
1	There is adequate coverage of the courses pertinent to the program				✓		
2	Courses in the program imbibe employability skills						
3	Courses provide enough conceptual understanding of the areas concerned					✓	
4	Courses are designed to enhance analytical abilities)				✓		
5	Courses in the program provide for adequate participative learning / design content					✓	
6	Courses in the program provide relevant study material in terms of text and reference books				✓		
7	Overall Rating of the courses in the program				✓		

Suggestions for improvements:

Name of the Dept: *Electrical and Electronics*

Name of the Student: *Mahima Kumawat*

Name of the Program: *EE-IOT*

Batch: *I*

Sl.No	Description	1	2	3	4	5	If less than 3, kindly provide the suggestions for Improvement
1	There is adequate coverage of the courses pertinent to the program			✓			
2	Courses in the program imbibe employability skills				✓		
3	Courses provide enough conceptual understanding of the areas concerned				✓		
4	Courses are designed to enhance analytical abilities)				✓		
5	Courses in the program provide for adequate participative learning / design content				✓	✓	
6	Courses in the program provide relevant study material in terms of text and reference books				✓	✓	
7	Overall Rating of the courses in the program				✓		

Suggestions for improvements:

Must include industry oriented subjects with practical knowledge instead of theoretical knowledge.

Program Evaluation By Student

Name of the Dept: ELECTRONICS & ELECTRICAL

Name of the Student: SAKSHI SRIVASTAVA

Name of the Program: B.Tech Electronics - Core

Batch: 2016-2020. (Batch-I)

Sl.No	Description	1	2	3	4	5	If less than 3, kindly provide the suggestions for Improvement
1	There is adequate coverage of the courses pertinent to the program						
2	Courses in the program imbibe employability skills			✓			
3	Courses provide enough conceptual understanding of the areas concerned			✓			
4	Courses are designed to enhance analytical abilities)			✓			
5	Courses in the program provide for adequate participative learning / design content				✓		
6	Courses in the program provide relevant study material in terms of text and reference books				✓		
7	Overall Rating of the courses in the program			✓			

Suggestions for improvements: There should be more practicals rather than the classroom study.

Sakshi
